## PROFILE

London based Technical Director with a diverse skillset including FX, Character FX, rigging & programming. Balancing arts route education against a technical mindset to bring a multi-faceted approach to creative problem solving. In depth understanding of wider VFX requirements, such as colour theory, physics and VFX photography.

## SKILLS

### 3D

Comprehensive knowledge of most major 3D packages, often utilizing advanced methods in each

*Houdini, Maya, 3DS Max, MotionBuilder, ZBrush, 3DCoat, Mudbox, Agisoft Photoscan, Marvelous, Realflo, Vue, Unity, Cinema 4D, Arnold, V-ray, Mental Ray, Mantra*

### Coding

Created various VFX tools including custom effects, motion capture, rigging, pipeline and a network rendering package

*Python, VEX, MEL, C#, C++*

### Matchmoving

Understanding of the strengths and weaknesses of each package to apply the best solution

*3D Equalizer, PFTrack, Mocha*

### 2D

Broad proficiency in both technical use and underlying colour science

*Nuke, Substance Painter, Mari, After Effects, Photoshop, Resolve*

Additionally, I have a keen understanding of FTrack and Shotgun, and have developed pipeline tools using their APIs. I am proficient with Linux, Windows and OSX. I am an avid videographer having used cameras such as the Arri Alexa, Canon C300 and various DSLR cameras. Recently I have also started piloting drones. I have played basketball at an international level and have a full clean driving license.
